Fiber Media Converter Solutions

Application of Media Converter Solutions	11
Chassis Solution	
• Compact Media Converter Chassis	13
• Media Converter Chassis	13
Standalone Media Converter Solution	
• 10G Media Converter	14
• 1G Compact Media Converter	15
• 1G Media Converter	16
• 100M Media Converter	17
• Home Size Media Converter	18

Industrial Media Converter Solutions

Industrial Level Solution (-40~75°C)	
• Industrial 60W PoE++ Media Converter	19
• Industrial 802.3at PoE+ Media Converter	20
• Industrial Media Converter	21
Entry Level Solution (-20~60°C)	
• Industrial 802.3at PoE+ Media Converter	22
• Industrial Media Converter	23

Accessory

SFP/SFP+ Transceiver	
• 10G Ethernet	24
• Gigabit Ethernet	25
• Industrial Gigabit Ethernet	26
• Fast Ethernet	26
Lightning Protector	27
External Battery Unit	27
Industrial Power Supply	28

Professional Network Solution Provider

Founded in 1998, Connection Technology System Inc. (CTS) consists of a group of design, technical, and marketing professionals with diverse backgrounds in the communication field and focuses on the professional FTTX and Industrial networking solutions to telcos, network operators, and broadband service providers all over the world. In 2017, with the advantages and experiences accumulated from FTTX markets, CTS launched SIMPNIC* to dedicate to the most cutting-edge IoT integrated solutions to meet the trend of smart living.

FTTX, Industrial
Network Solutions

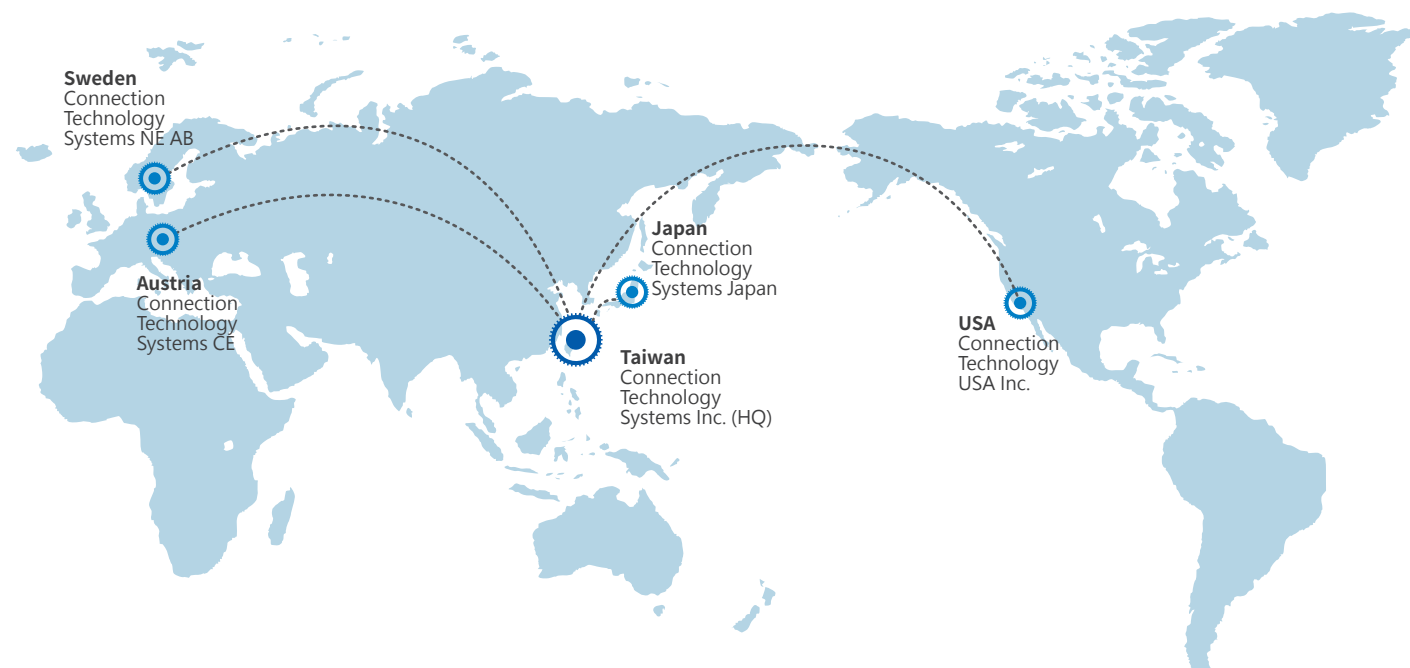

IoT Integrated Solutions
(*www.simpnic.com)

In close cooperation with our partners, CTS has achieved:

- Over **1,4 Million** FTTX Last Mile Deployments
- Over **750,000** Fiber Ethernet Connectivity Deployments
- Over **100,000** FTTB Access-Side Deployments

With in-house design capability and over 20 years of FTTX domain knowledge, CTS has been a reliable partner who always acts proactively to understand customers needs in order to provide the most innovative and valuable solution. While our business is growing in different parts of the world, CTS established local branches in Sweden, USA, Japan and Austria since 2010 to provide fast and efficient response as well as to form a deeper understand and closer relationship with regional markets.

Throughout the past two decades, CTS has seamlessly teamed up with our customers and delivered a wide range of professional fiber connectivity solutions. We will continue to keep our customer in mind and think steps-ahead to develop flexible, high-quality and efficient solutions that create the most value to our customers around the world.

About CTS

Why CTS

The Spirit of Pursuing Excellence

For CTS, our achievement is defined by each successful story our customers have experienced. Until this day, with 20 years experiences in the field, CTS' innovative spirit and passion still driving the company to pursue excellence. Through continuously interact with the clients and the markets, CTS has insisted on keeping "Differentiation and Glocalization" which has make us one of the leading solution providers for telecom companies, network operators, and broadband service providers all over the world.

Networking Consultant

- With more than 20 years of FTTX experiences, our "Smart-consult Team" combines the best of CTS members who work closely with customers.
- Local professional team in CTS branches offers quick and regional-specific assist and allows us to response value-added information and can think steps ahead.

In-house Designer

- With the ability to design and manufacture by ourselves, CTS continuously pursues to optimize the solution for better fiber connectivity deployment and future applications.
- Conscientiously research on the market in order to create innovative differentiations to fulfill the ever-growing expectation from the customers worldwide.

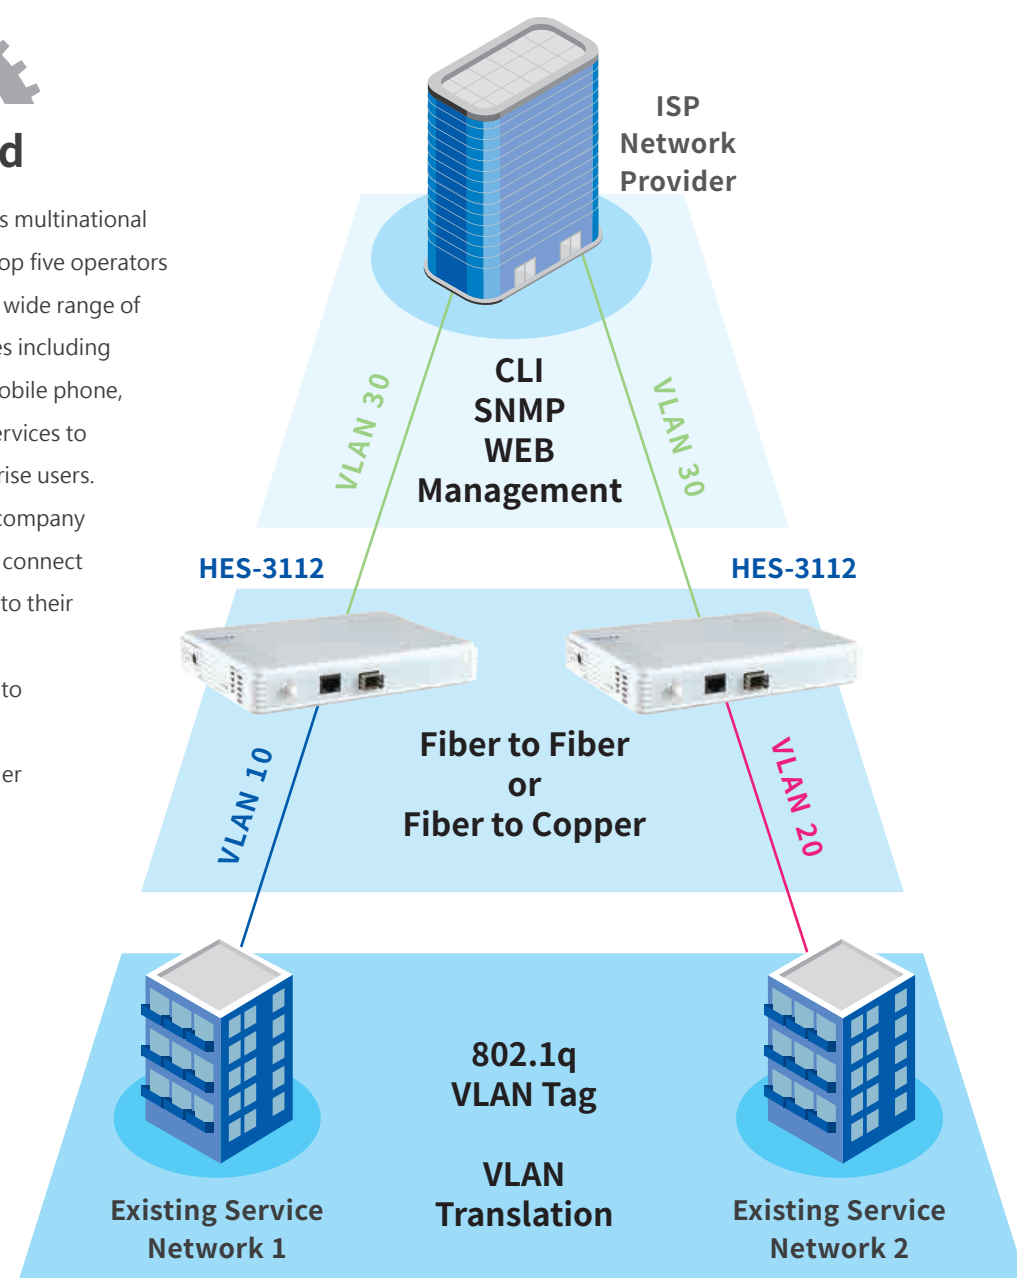

Trustworthy Partner

- CTS is not just a vender but partner to our client because we always keep our customer's goal in mind to develop the most fitted solution.
- 0.07% DOA rate is a result of CTS' high-standard quality control program that demonstrate throughout the design, manufacturing, customer service process.

Top 5 Europe-based Telecom Chose CTS Solution for Its Enterprise Network

Background

Established in 1988, this multinational telecom is ranked the top five operators in Europe. It provides a wide range of communication services including fixed line telephone, mobile phone, broadband and IPTV services to both home and enterprise users. However, the telecom company faced challenges when connect the expanded network to their existing network. This triggered the company to search for the most efficient solution in order to serve its enterprise customers without too much hassle...

CTS Products

HES-3112SFP-CL-DR
Managed Dual Rate Media Converter

Challenge

- ① The VLAN in the newly expanded network is different from the VLAN in the existing network.
- ② Increase popularity of Gigabit network in business users while some still remain at 100Mbps.
- ③ The operator needs to be able to monitor and troubleshoot around the clock for its enterprise users.
- ④ Request high security that only allows specify source from the operator to manage the devices.

Solution & Benefit

- ① Intergrate two networks by VLAN Translation feature to avoid massive re-configuration.
- ② With dual-rate capability from 100Mbps to Gigabit, the operator is able to cater different requirements.
- ③ Remote IP management with WEB/CLI configurable option allows the operator to manage and trouble shoot with ease.
- ④ Support IP Source Binding to meet the security requirement for a large operator.

Networking Consultant

Adapt features to meet local needs with standard interoperability.

Trustworthy Partner

Our smart-consult team provides professional assists in the project development stage.

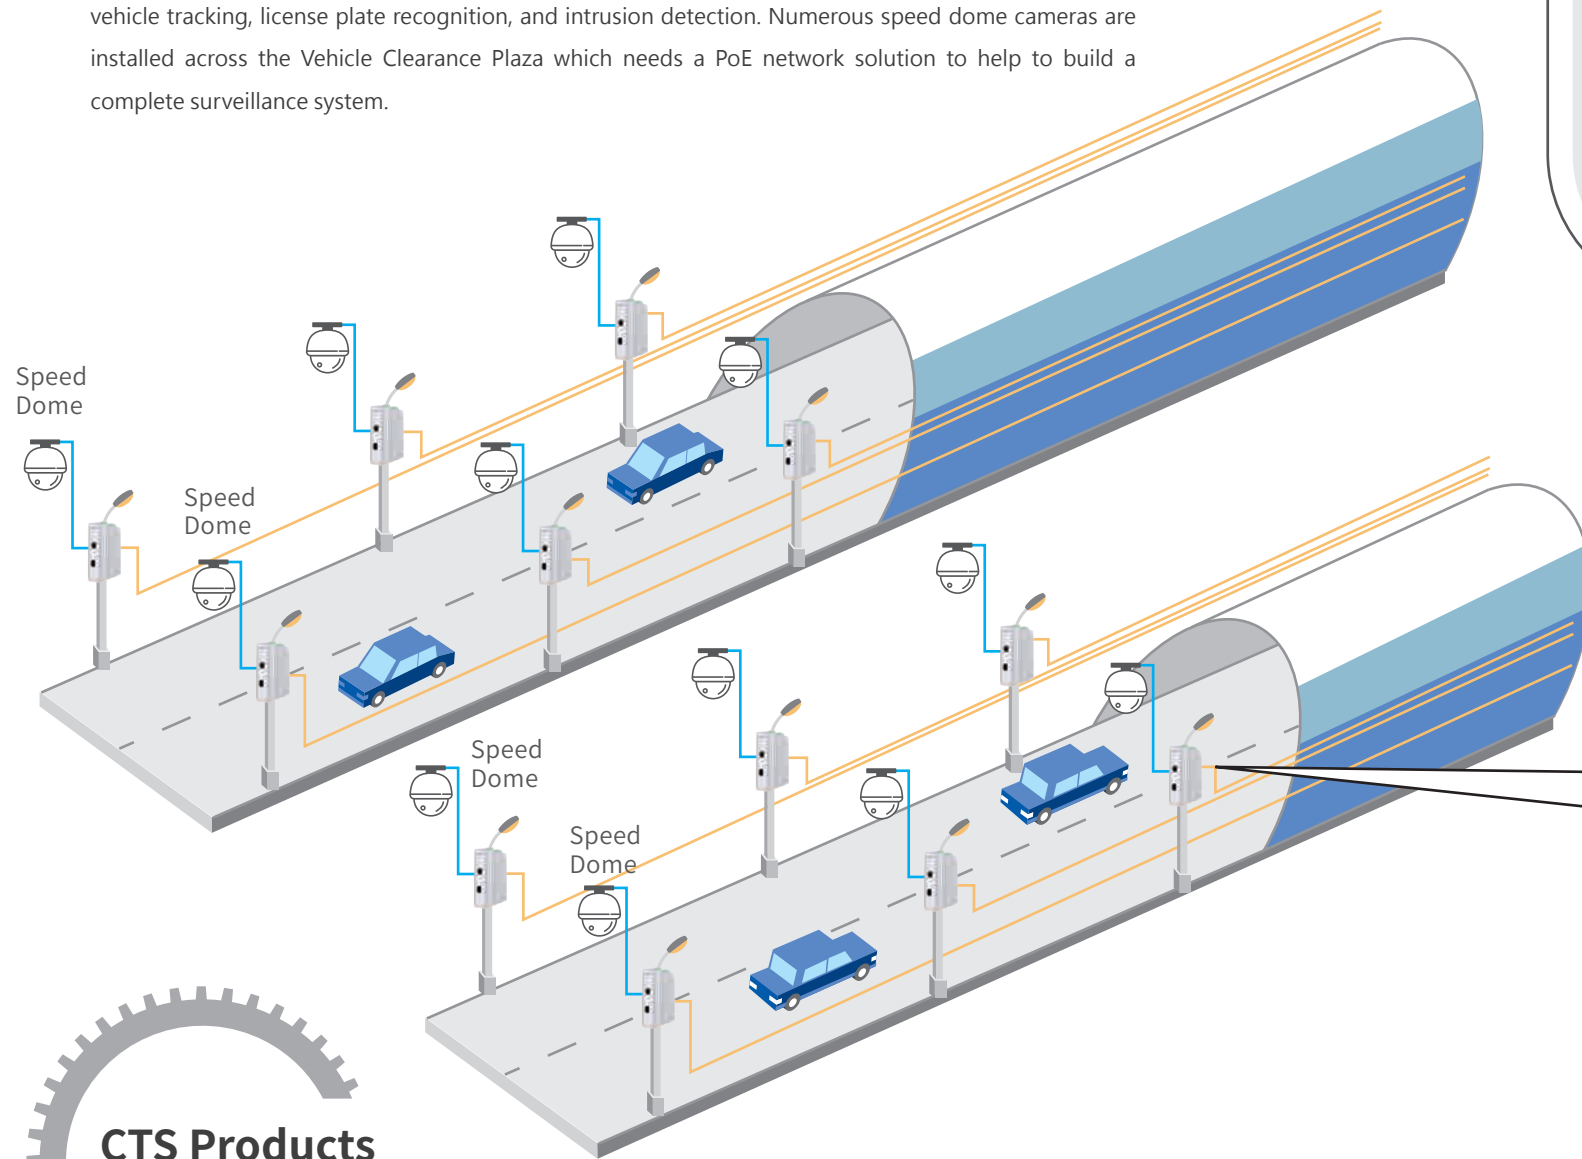

In-house Designer

Help the customer to solve the problem in the most efficient way.

CTS Industrial Media Converter Is Adopted by Hong Kong Border Facility

Background

Hong Kong Boundary Crossing Facilities (HKBCF) is the immigration and customer check point on the Hong Kong–Zhuhai–Macau Bridge. To meet security requirements and provide convenient services to motorists and passengers, HKBCF deployed state of the art Automatic Vehicle Clearance System (AVCS) for vehicle tracking, license plate recognition, and intrusion detection. Numerous speed dome cameras are installed across the Vehicle Clearance Plaza which needs a PoE network solution to help to build a complete surveillance system.

CTS Products

IPC-3012-PoE++

1-Port SFP to 1-Port **60W PoE++** Gigabit Industrial Media Converter

Challenge

- ① Speed dome camera require 60W power input.
- ② Outdoor site on an artificial island with subtropical climate.
- ③ Frequent thunder storm on site.
- ④ Required 24/7 non-stop surveillance network.

Solution & Benefit

- ① IPC-3012-PoE++ compatible with IEEE 802.3af/at PoE+ and up to 60W power output.
- ② Able to operate smoothly in outdoor, marine, hot and humid environments.
- ③ 6KV Surge Immunity on copper ports prevent devices from damage.
- ④ Dual power input (12~57VDC) and built-in power booster to ensure non-stop and stable power supply to the connected cameras.

IPC-3012-PoE++

Networking Consultant

Our professional sales and technical team helped client looking for the best fitted solution.

Trustworthy Partner

The CTS in-house design and production team ensure the top-notch quality.

In-house Designer

Providing the reliable product that helps the customer achieve their goal more effectively.

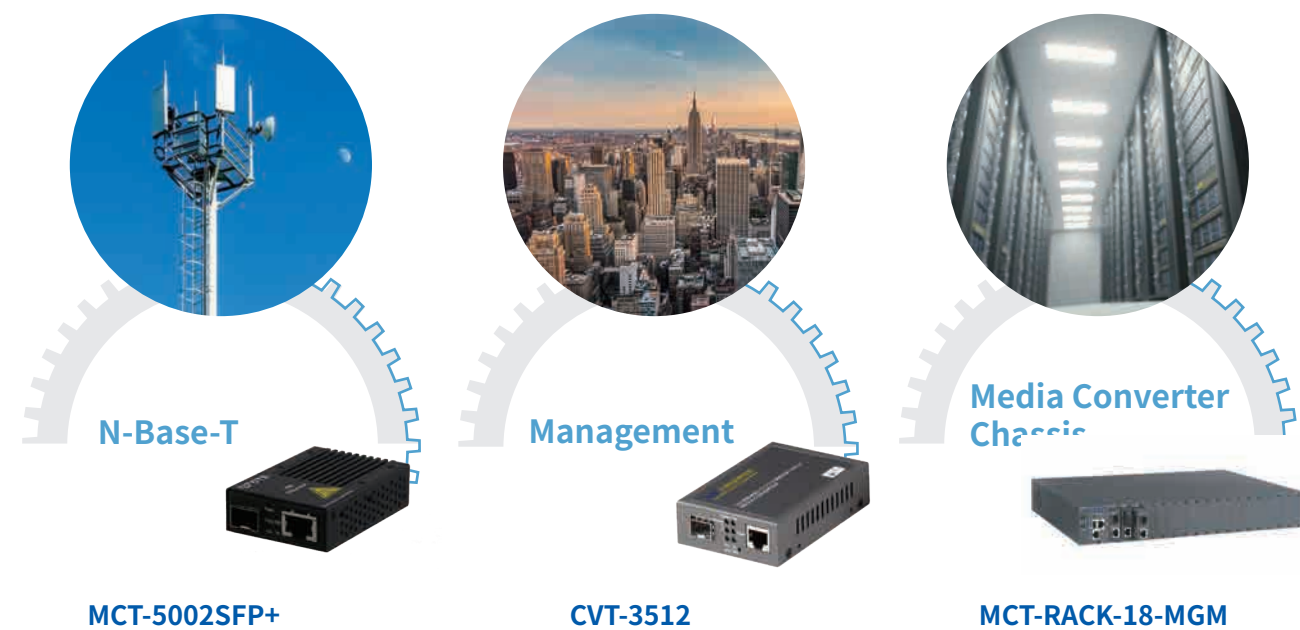

Extension and Expansion for Point-to-Point Solutions

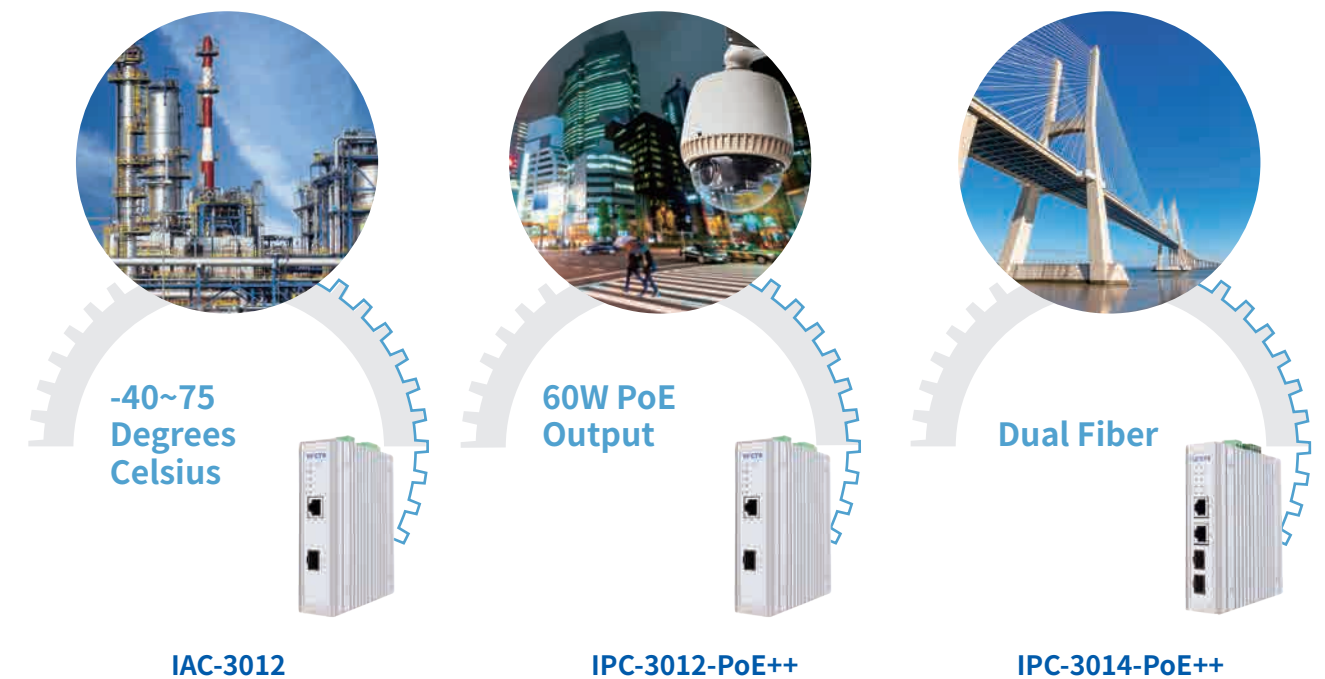

In an ever-growing world of internet, media conversion is important for interconnecting two source of services. For CTS, it's our job to simplify data transportation and create seamless connection between different devices. MCT/CVT Media Converters series are flexible and cost-effective solution for implementing and optimizing fiber links to copper link in all types of networks.

With centralized Media Chassis – MCT/CVT-RACK Series, the stand-alone, plug-and-play MCT/CVT Media Converters can easily expand the fiber-optic networks. The wiring distance of MCT/CVT-RACK Series can extend from 2 to 120km and the transmission distance is up to 120km.

- 10G Solution for 10G SFP+ to 10G SFP+ or 10G SFP+ to 100M/1G/2.5G/5G/10G N-Base-T
- Gigabit Solution for 100/1000Base-X SFP to 100/1000Base-X SFP or 1G SFP to 10/100/1000Base-T
- WEB UI and SNMP v1/v2c Management Interface for Managed Media Converter
- Plug and Play 2/16/18-Slots Media Chassis
- 12/18-Slots Managed Media Chassis via WEB UI, CLI, Telnet, SSH and SNMP v1/v2c Management Interface

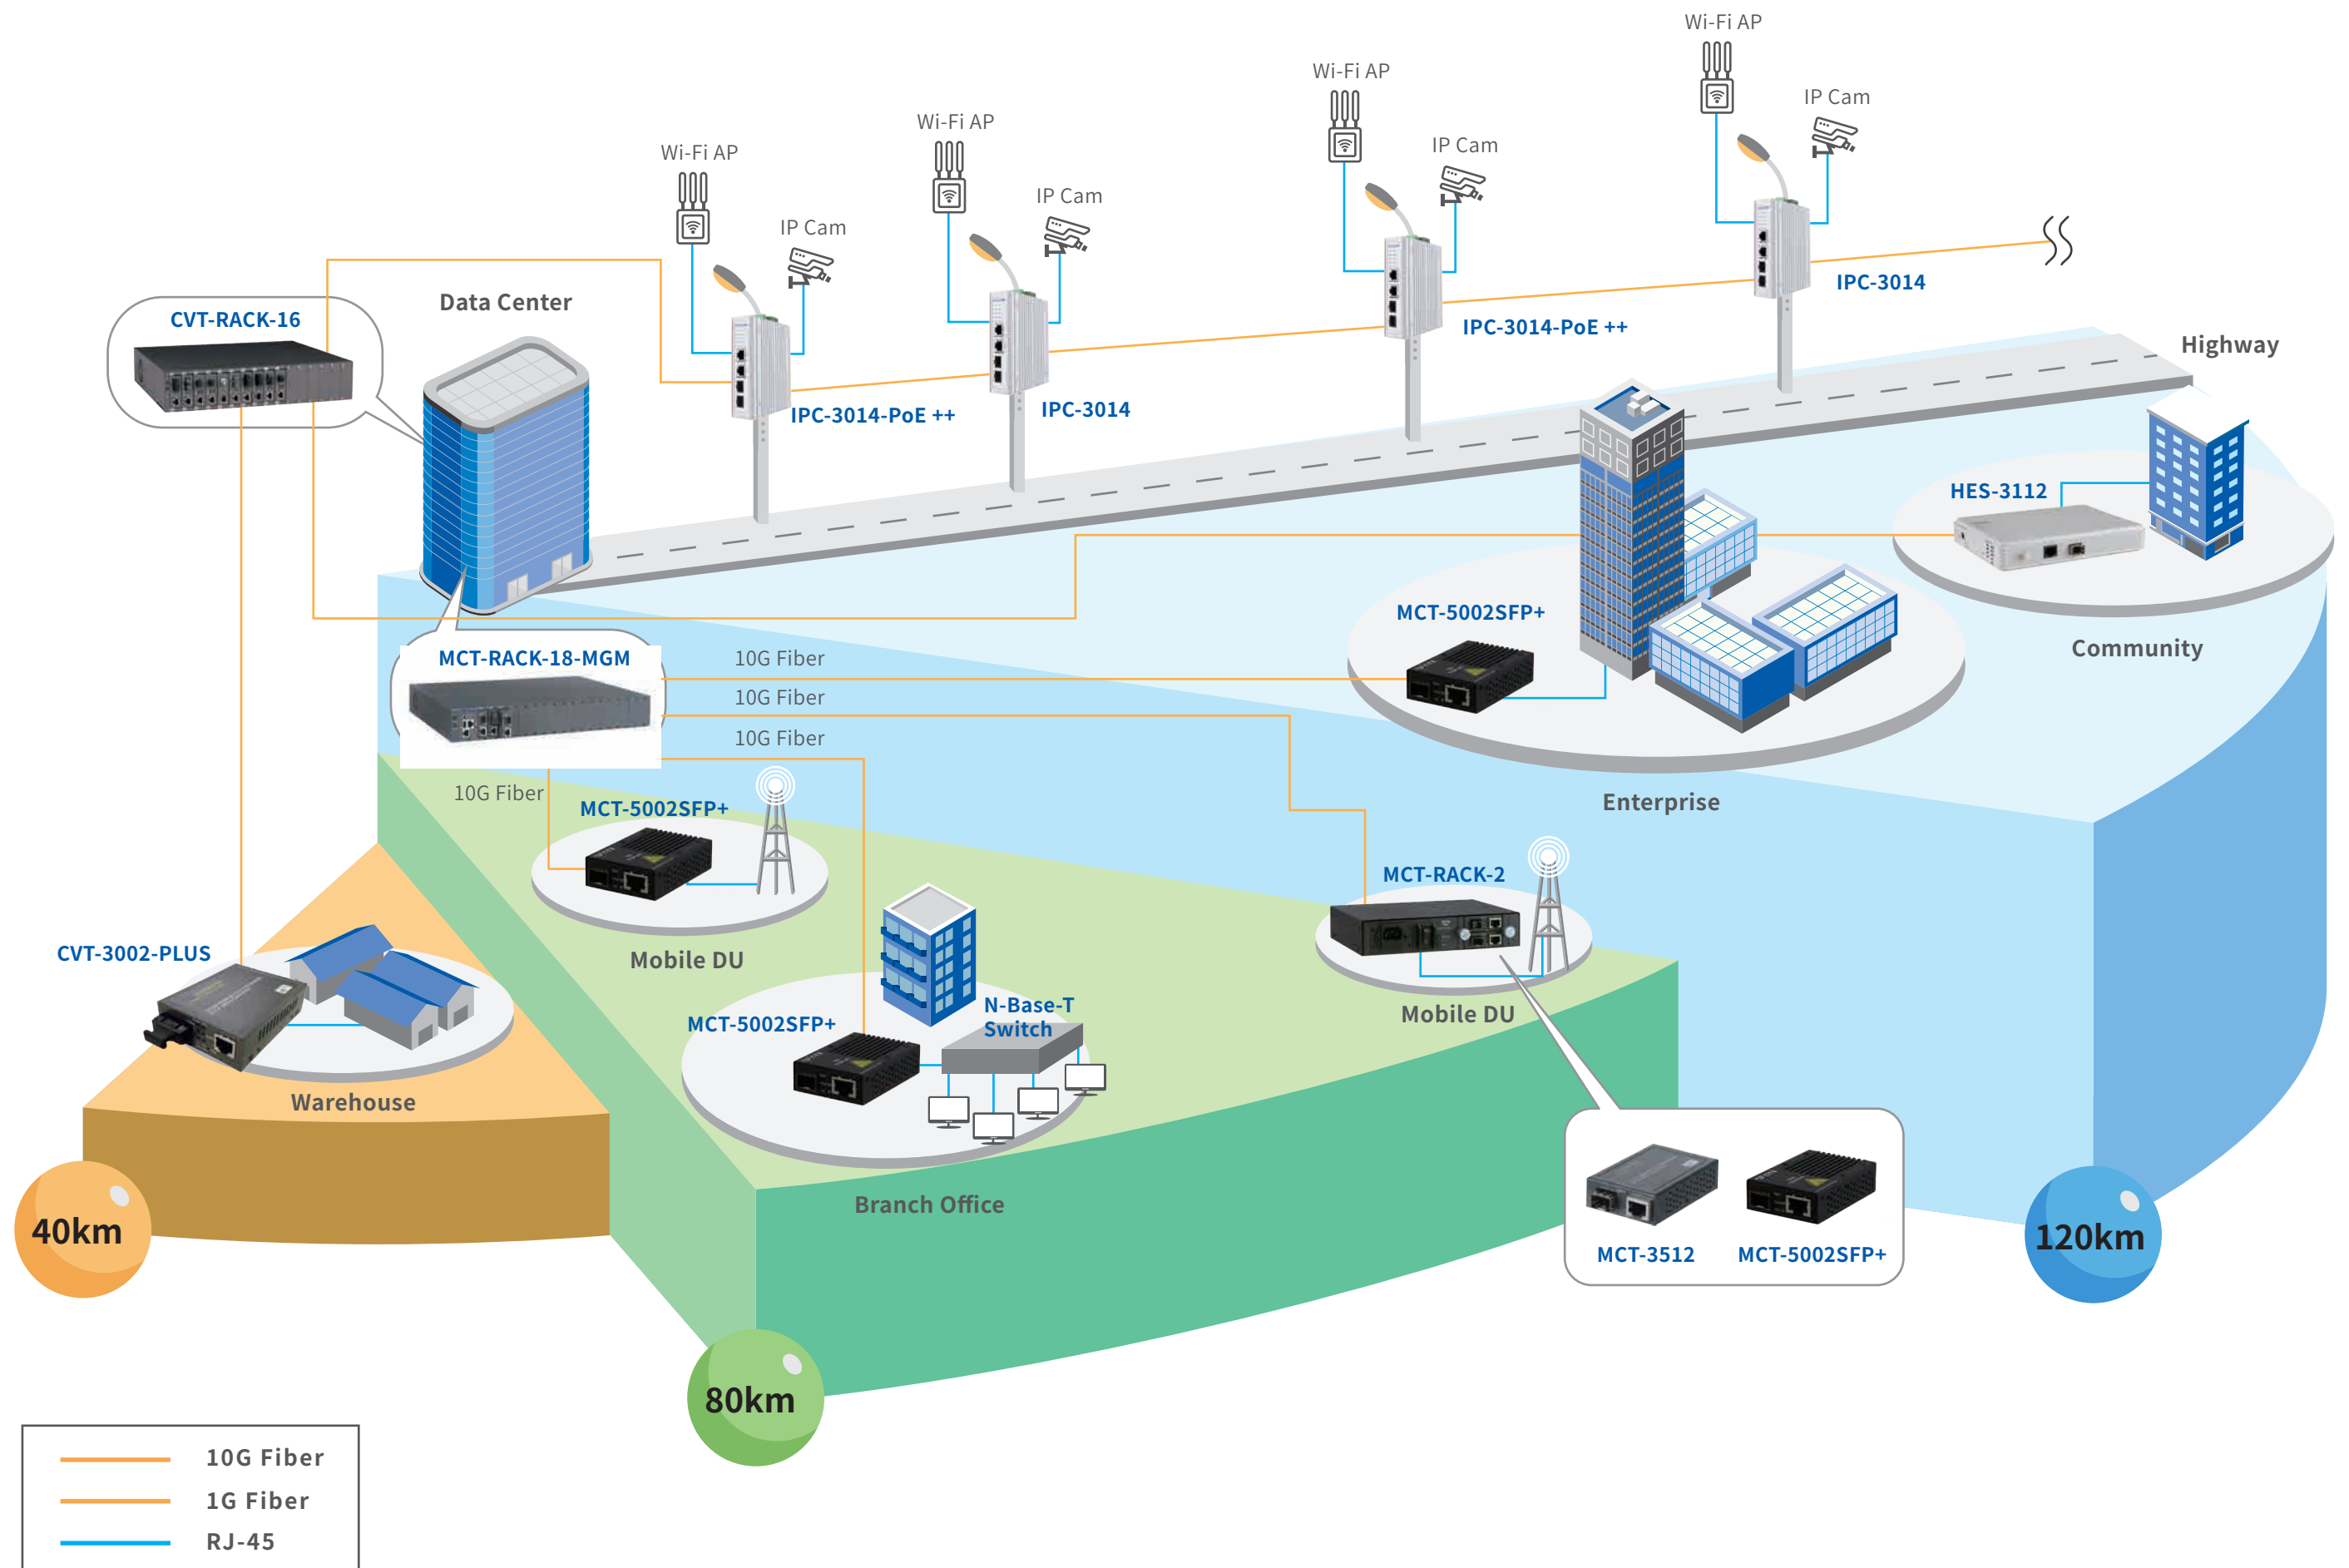

Robust, Reliable and Extensible Solution to Reach Copper Devices Effortlessly

CTS Industrial Media Converters in robust IP30 housing are designed to meet the demands of industrial network plug-and-play usage. Industrial Media Converters can extend your Ethernet network beyond 100-meter limitation and convert fiber links from multi-mode to single-mode or vice versa. The wiring distance of CTS Industrial Media Converters can extend from 2 to 120km and data transmission distance is up to 120km.

- IP30 Slim Design Housing
- 40~75 Degrees Celsius Operating Temperature for Harsh Operating Environment
- 12~48/12~57/48~54VDC Dual Power Input for Uninterrupted Network System
- 1/2-port Copper to 1/2-port Fiber-optic Interface
- Supports 1/2-port PoE Injector
- Supports IEEE 802.3at/af PoE and 60W PoE++ Power Output
- Built-in DIP Switch Provides Port Isolation and Fiber Redundancy Mode

Accessory

Lightning Protector

Product Image

Model Name	LPB-101						
	Copper Port				Temperature	Dimension W x D x H	Note
	Speed (Mbps)	Type	Input Port	Output Port			
LPB-101G-P	10/100/1000	RJ-45 w/ PoE	1	1	0~50°C	70 x 25 x 25mm	It is necessary to be grounding properly when implementing.
LPB-101G	10/100/1000	RJ-45	1	1	0~50°C	70 x 25 x 25mm	

External Battery Unit

Product Image

Model Name	EBU-120						
	DC Input	External Battery (Recommended Spec.)		Charging/Backup (for reference)		Temperature	Dimension W x D x H
	Voltage	Type	Capacity	Charging Time	Backup Time		
EBU-120	12V	VRLA	12V/2.3h	7hrs	2.2hrs (for HES-3109SSFP)	0~50°C	124 x 70 x 30mm

Industrial Power Supply

Product Image

Model Name		SDR-480-48		SDR-240-48		SDR-120-48		SDR-75-48	
Output	Rated Power	480W		240W		120W		76.8W	
	Voltage Adj. Range*	48~55V							
	Current Range	0~10A		0~5A		0~2.5A		0~1.6A	
Input	Voltage Range	90~264VAC 127~370VDC		88~264VAC 124~370VDC					
Protection		Overload, Over Voltage, Over Temperature							
Temperature		-25~70°C							
Dimension W x D x H		85.5 x 125.2 x 128.5mm		63 x 125.2 x 113.5mm		40 x 125.2 x 113.5mm		32 x 125.2 x 102mm	

Product Image

Model Name		NDR-75-48	MDR-60-48	MDR-20-12
Output	Rated Power	76.8W	60W	20W
	Voltage Adj. Range*	48–55V	48–56V	10.8–13.2V
	Current Range	0–1.6A	0–1.25A	0–1.67A
Input	Voltage Range	90–264VAC 127–370VDC	85–264VAC 120–370VDC	
Protection		Overload, Over Voltage, Over Temperature	Overload, Over Voltage	
Temperature		-25–70°C		
Dimension W x D x H		32 x 125.2 x 102mm	40 x 90 x 100mm	22.5 x 90 x 100mm

* Voltage Tolerance: ± 1.0%
